Siemens to supply 140 wind turbines for the world's largest offshore wind farm

Siemens Energy has received an order for the supply of 140 wind turbines for the world's largest offshore wind farm Greater Gabbard located 25 kilometers off the coast of Suffolk in Great Britain. The order includes also a 5 year service and warranty agreement. The purchaser is Greater Gabbard Offshore Winds Ltd, owned by Scottish and Southern Energy plc (SSE). The delivery of these turbines is scheduled in 2009 and 2010. The order volume for Siemens Energy is approximately EUR800 million.

"Siemens is delighted to have signed this prestigious order with SSE as this marks a major milestone in the offshore business for Siemens as the clear market leader in the offshore wind energy business," said René Umlauf, CEO of the Siemens' Division Renewable Energy.

The Siemens Energy Sector is the world's leading supplier of a complete spectrum of products, services and solutions for the generation, transmission and distribution of power and for the extraction, conversion and transport of oil and gas. In fiscal 2007 (ended September 30, based on IFRS), the Energy Sector had revenues of approximately EUR20 billion and received new orders totaling around EUR28 billion and posted a profit of EUR1.8 billion. The Energy Sector had a work force of 73,500 at the beginning of fiscal 2008. Further information is available at: www.siemens.com/energy.

All figures represent the sum of the nonconsolidated figures for the Power Generation and Power Transmission and Distribution Groups and for the Oil and Gas activities of the Industrial Solutions and Services Group.
